

*Veritas is all about having a great time with food and wine. We could have picked a few dozen wines that we thought “paired well” with Chef Scott Bryan’s food; but those would just be our opinion. We decided to approach our wine program from a “let’s have a little bit of everything” basis.*

*The wine program is a collaborative effort between a good number of people. Three of our owners, Park Smith, Steve Verlin and Gino Diaferia, opened their personal wine collections to us to draw a reserve list from. Our “wine team” has organized and added to that list. In addition we have created a fun and exciting “market” list.*

*Our analogy for this list is that of a chef who goes out looking for new and interesting ingredients and composes a menu out of it; rather than trying to find ingredients to fit a preconceived menu. We are constantly trying new wines - our goal is not to “fill in the holes”, but rather to find wines that we like and feature them. Some of these wines are available in only very small quantities. Some will only be available here at Veritas. Some are wines that you, and we, already know and enjoy.*

*There may be times when we just don’t happen to have a particular style of wine on the list, because nothing we’ve tasted recently strikes us. Sometimes we may feature a particular grape, or region, or style, because one of our staff has taken a personal interest in exploring it, and we want you to join us on that exploration. We also want to make that exploration as painless as possible - we think we’ve priced these wines to accomplish just that.*

*We know the list is extensive. We’ve tried to make it as “user-friendly” as possible. We’ve also tried to make our staff as “wine-friendly” as possible. If you’d like some guidance, please, ask for one of us. We’d love to give you a hand and introduce you to something new, different, and exciting, or help you to find a wine that you already know and want to enjoy again.*
